Use Overview:

Complete® Floor Finish is a durable finish that reduces the need to strip and refinish. Use on all resilient floors including vinyl, vinyl composition, vinyl asbestos, asphalt tile, rubber and linoleum. Non-resilient floors such as concrete and terrazzo should be sealed with a recommended JohnsonDiversey sealer before applying.

- Strip floor using recommended JohnsonDiversey brand stripper according to label directions.
- Apply 2–3 uniform coats using a clean mop. If higher gloss is desired, apply additional coats.
- Allow 40–50 minutes drying time between coats.
- Contaminants on floors can cause floors to become slippery.
- Avoid contact with eyes and skin.
- If contact occurs, flush immediately with water.
- If irritation develops, seek medical attention.
