Section 10 – Accidental Release Measures

Spill Clean-Up Procedures: Spills are unlikely with pre-saturated wipes. Maintain adequate ventilation. Follow personal protective equipment recommendation found in Section 12. Contain spill, place into drums for proper disposal. Soak up residue with inert absorbent material. Place in non-leaking containers for immediate disposal. Flush remaining area with water to remove trace residue and dispose of properly. Avoid direct discharge to sewers and surface waters. Notify authorities if entry occurs.

Section 11 – Handling and Storage

Handling: Avoid eye contact. Do not swallow.
Storage: Store in a cool, dry place. Keep away from incompatible materials. Keep containers tightly closed. Do not store in unlabeled or mislabeled containers.

Section 12 – Exposure Controls/Personal Protection

Engineering Controls: General room ventilation is required. Avoid creating dust or mist. Maintain adequate ventilation. Do not use in closed or confined spaces. Keep levels below exposure limits. To determine exposure levels, monitoring should be performed regularly.

Eye/Face: Chemical splash goggles in compliance with OSHA regulations are advised; however, OSHA regulations also permit other type safety glasses. (Consult your safety equipment supplier).

Skin: Material is not considered a skin contact hazard; however, it is advised that personnel minimize skin contact. Protective gloves: Impervious. Chemical-resistant.

Respiratory: None required under normal use. If exposure limits are exceeded, wear: NIOSH-Approved organic respirator. NIOSH-Approved self-contained breathing apparatus. DO NOT exceed limits established by the respirator manufacturer. All respiratory protection programs must comply with OSHA 29 CFR 1910.134 and ANSI Z88.2 requirements and must be followed whenever workplace conditions require a respirator's use.
